EXPERIENCE

Brave solutions, Addis ababa— Backend developer

mar2025 - jun2025

Worked as a backend developer designing and building RESTful APIs, implementing authentication and authorization, managing and optimizing databases, integrating third-party services and payment gateways, applying SEO-friendly backend practices, and delivering secure, scalable business logic.

Zema web solutions, Addis ababa— Fullstack developer

Dec2024 - mar2025

Built and maintained both frontend and backend features, developed APIs, connected databases, and integrated user interfaces to deliver complete web applications.

Upwork, Remote— web3 smart-contract developer

Jan 2026 - jan2026

Designed, developed, and tested smart contracts, focusing on secure logic, efficient gas usage, and reliable on-chain interactions..

EDUCATION

Adama science and Technology , Adama— Degree

Jan2023 -Present

Software Engineering student at Adama Science and Technology University (ASTU), with a focus on software development and system design.

PROJECTS

FMBLS — Learning management system

Developed FMBL Learning Management System, a gamified learning platform that won a hackathon, featuring user authentication, lessons, quizzes, XP, leaderboards, and group-based learning.

SKILLS

Go(Golang) ,Node.js, [Express.js](#),
concurrency, REST API design:
net/http

Database modeling,
SQL,MongoDB and
performance tuning

Payment gateway integration
(Stripe, PayPal, etc.)

SEO-friendly backend
rendering & metadata
handling

Cloud deployment &
environment configuration

Smart contract
development,Web3.js /
Ethers.js,On-chain/off-chain
interaction, Solidity

AWARDS

1st Place Winner, ASTU ECSF
Hackathon 2026 Recognized
for designing and building an
innovative software solution
under time constraints.

Participant, Computer Science
Competition Competed in
problem-solving and coding
challenges

LANGUAGES

English Consectetuer
